

JOHNSTON RESEARCH AND PERFORMANCE INC.

PROUDLY SELLING THE BEST PERFORMANCE PARTS ON THE PLANET FOR OVER 30 YEARS!

WHEN ONLY THE BEST WILL DO

Founded in 1989 by Derek Johnston, JRP initially catered to Volkswagen dealers, and then gradually expanded its services to embrace the full range of import cars along with performance shops, shaping its future.

In 1993, Derek Johnston, an Automotive Engineer and passionate car enthusiast, left his executive role at a Fortune 100 company to commit fully to JRP, focusing on customizing import cars. This turned out to be a prescient move as the trend gained momentum. A fortuitous partnership with Alamo Autosports in Texas

and a key encounter at the 1995 Tokyo Auto Salon introduced JRP to manufacturers which were not represented in Canada. This led to enduring relationships with Rays, Apexi, Greddy, Tein, Sparco, AEM and HKS just to name a few.

The same year, JRP expanded its team, began a presence within SEMA, and established warehousing facilities in the U.S. and Canada. Awards at SEMA, and strong vendor and customer relationships followed. By 2018, JRP had collaborated with over 200 manufacturers,

championing innovation and quality.

JRP's dedication to grassroots motorsports, has been evident since its inception, and endures through its involvement with car clubs, events, track days, and drivers every year.

Johnston Research and Performance now handles more than 300 brands and is the exclusive Canadian distributor for over 30 including Sonax Car Care and is proud to serve automotive enthusiasts all across the country.

HKS

THE FULL GR86 PROGRAM NOW AVAILABLE

JRP is the exclusive distributor for HKS the world's leading tuning parts manufacturer. HKS has a full line of products for both professional and light tuning and has their GR8 program.
